# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On February 29, 1976
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
March 1 - 9, 1976

-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of March 11, 1976 (based on reports from exporters during the week ending February 29, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 advanced by 442,600 metric tons (MT), bringing the total for the year to 28.6 million MT, about equal to that for the comparable period last year. Exports during the marketing year to date now total 23.5 million MT, 12 percent higher than the total reported at this time a year ago. New sales were largely responsible for the increases in commitments of 57,800 MT and 68,400 MT to the European Community (EC) and Japan, respectively. Commitments to Morocco rose by 94,600 MT as a result of purchases of U.S. wheat made under CCC credit arrangements. Commitments to Latin American destinations increased by 117,700 MT, principally because of new sales to Chile (50,000 MT) and Venezuela (54,200 MT). Total commitments to Latin American countries now total 5.5 million MT, up over 1.2 million MT from those at this time last year. The increased commitment to the USSR of 75,300 MT largely reflects transfers from optional origin rather than new sales.

Feedgrains: The apparent export commitment for feedgrains increased by 798,200 MT, bringing this year's total commitments to 30.9 million MT, of which about 22.0 million MT has been exported. Corn commitments rose by 688,300 MT to total 26.1 million MT for the year. Major increases in commitments were to the EC (141,800 MT), Japan (171,800 MT), and the Republic of Korea (78,300 MT). Commitments to unknown destinations increased by 106,700 MT. A 122,300 MT increase in corn commitments to the USSR largely reflects transfers from optional origin. Sorghum commitments advanced by 73,100 MT to total 4.2 million MT for the year, about 1.4 million MT below the level of the corresponding period a year ago.

Rice: The apparent export commitment for rice in 1975/76 increased by 58,600 MT, the largest weekly increase since the week ending November 2, 1975. Total commitments for the year now stand at just over 1.0 million MT, of which 775,600 MT has been exported. Last year at this time, commitments totaled 1.8 million MT, of which 1.2 million MT had been exported. Increased commitments to the EC accounted for over one-half of this week's growth in commitments, largely resulting from new sales to Italy. Total commitments to Italy now stand at 51,300 MT, more than 13,000 MT above the total exported during all of 1974/75, according to Bureau of the Census data.

Soybeans: The apparent export commitment for 1975/76 increased by 266,400 MT, primarily reflecting increased commitments to the EC, Japan, Spain, Taiwan, the USSR, Peru, and Singapore. Commitments to unknown destinations declined by 61,400 MT as a result of destination changes to the known category. Exports during the week totaled 362,200 MT, primarily to the EC (159,600 MT), Japan (59,400 MT), Taiwan (38,500 MT), and the

USSR (37,500 MT). With midyear accumulated exports reaching 8.44 million MT, total exports during 1975/76 are now expected to be between 13.6 - 15.0 million MT, up 5 percent from the previous range of estimates.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased by 60,900 MT, primarily reflecting increased commitments to the EC, Venezuela, Spain, and Czechoslovakia. Commitments to unknown destinations declined by 21,900 MT because of destination changes to the known category. Exports during the week totaled 96,700 MT, primarily to the EC (53,200 MT), East Germany (20,000 MT), and Spain (10,900 MT). Exports to the EC in 1975/76 now total 1.14 million MT, about 6 percent below exports of 1.21 million MT shipped prior to this date last season.

Soybean Oil: Exports during the week totaled 14,700 MT, primarily to Iran (10,200 MT). Exports in February exceeded 70,000 MT, the largest month's volume shipped so far this season. The estimated range of exports for 1975/76 has been raised 9 percent because of increased CCC credit availability.

Cotton: Moderate export sales of U.S. Upland cotton, predominantly to Far Eastern markets, were below the level of the previous six weeks. U.S. prices firmed during the week while foreign prices changed very little on light international demand. Export sale registrations for the four weeks ending February 29 totaled 450,000 running bales (RB), compared with 615,000 RB in the previous four weeks and 270,000 RB a year earlier.
